With the use of Rapid Rack Tee Posts you can combine add-on units with individual Bulk Storage units to arrange economical rows of shelving. Start each row with a Bulk Storage unit and join the desired number of add-on units to complete the row.

EXAMPLE: 1 Starter unit and 2 Add-ons.

Angle posts from starter unit are used at each end of the row. DRB's are required on top and bottom levels for rigidity.

NOTES:

- 1) When shelving structure must conform to seismic requirements, consult your Rapid Rack representative for assistance.
- 2) Particle board decking available, cut to size.
