

ROACH

THE LEADER IN 24 HOUR SHIPMENTS

Since 1953, **Roach Conveyors** has manufactured high-quality unit handling conveyors at competitive prices. It is our sole mission to solve material handling problems with unit handling conveyors and technical expertise acquired through years of experience. **Roach 24 Hour Shipment** conveyors, standard conveyors, modified standard conveyors and special--often times uniquely special conveyors--champion the most demanding applications. Therefore, our success is directly related to our willingness--and our ability--to address your specific need.

Vertical Conveyors

 **RVC**
Reciprocating Vertical Conveyor
8 Week Shipment

Continuous vertical conveyors or CVC conveyors are designed for high-rate applications and will carry loads weighing as much as 4,000 lbs. for net lifts of up to 40 feet.

Reciprocating vertical conveyors or RVC conveyors are an economical alternative for situations where the high rate capability of continuous flow vertical conveyors are not required. There may be any number of load/unload points and load/unload may take place from a choice of sides at any level. "Z"-flow and "C"-flow are available in the RVC model.
